

VINTAGEVIEW®

a new generation of wine racks

VintageView - the ideal solution for wine storage and display, perfect for anything from a single nine bottle wall rack up to a fully stocked wine collection

Whether in a small kitchen, personal wine cellar, restaurant, bar, hotel, club or retail outlet, the VintageView range allows you to create unusual, imaginative and eye-catching designs for storing and displaying wine collections of all sizes.

VintageView Wine Racks
The perfect fit for any wine collection

With VintageView ...

- Bottles are stored label forward and no scratched corners*
- No assembly required. Simply fix in place with 6 screws*
- Use 1 deep for narrow spaces, 2 or 3 deep for higher density storage*
- Simply fix to a wall, into a cabinet or free mount on a frame for a stunning display of your wine collection*

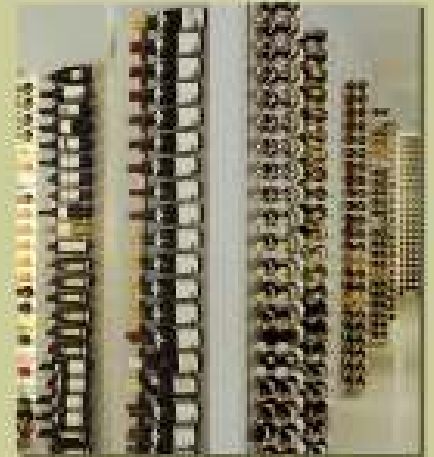

All racks can be easily combined, stacked, interlaced or cut to fit virtually any space.

It's the only wine storage solution that fits easily into narrow spaces, like hallways and under staircases, while still being able to expand to perfectly store larger collections.

From the simple to the spectacular, VintageView has the answer.

VintageView® Wine Racks

VintageView's label-forward wine racking and storage solution is a new generation of wine racks that offers a simple yet highly effective solution to displaying your wine.

From a simple one-deep wall rack, to a fully stocked 'wall of wine', with VintageView you can make an imposing and impressive display of your wine collection.

The highly modular design and ability to combine racks of different sizes into a single display means you can often achieve greater storage density than with traditional wine storage solutions.

With a choice of one, two or three bottle deep racks, each either nine or twelve bottles high, the VintageView range offers an exceptionally flexible and effective way to store wine bottles in nearly any space, regardless of height, depth or width limitations.

By combining any of these six basic racks, collections can be fitted into any space, displaying and storing your wine collection in the most efficient and effective way.

All our racks are made of high grade steel and come in either Bottle Green or Brushed Platinum finish.
