For additional bottles over 32, add 95mm per hole		For additional bottles over 32, add 75mm per hole		For additional bottles over 32, add 120mm per hole		For additional bottles over 32, add 105mm per hole					
Standard Depth: 8 3/4" / 220mm		Standard Depth: 6 7/8" / 175mm		Standard Depth: 10 7/8" / 275mm		Standard Depth: 8 3/4" / 220mm					

## How to calculate the size of your wine rack?

- 1 – Measure the Height and Width of the available space.
- 2 – Using the Dimension Chart above, read off the number of bottles which appear against the measurement immediately below your available height.
- 3 – Repeat the above process for the width measurement.

**Example:** If the available space measures 1800mm by 1400mm, your rack will accommodate 18 standard bottles high by 14 standard bottles wide, giving you a total of 252 bottles.

The traditional wine racks are available in 7 different colour options, all of which are shown on the right and side.
